***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate, teach or suggest a method of forming a semiconductor device substantially as claimed. For example, the closest prior art reference of record, Houlihan et al. (US 2001/0021545 A1), discloses a method for forming a semiconductor device. However, Houlihan fails to anticipate, teach or suggest a method of forming a semiconductor device substantially as claimed, wherein the method comprises: performing a first blanket implantation through a silicon dioxide to form an implanted silicon dioxide layer; and performing a second blanket implantation through the implanted silicon dioxide to form wells, as recited in claim 1. Secondly, as stated previously in the Office action mailed on 19 October 2006, Houlihan does not anticipate, teach or suggest a method for forming a semiconductor device substantially as claimed, wherein the method comprises: performing a first implantation of As<sup>+</sup> dopant through a silicon dioxide to form an implanted silicon dioxide layer; and performing a second implantation of As<sup>+</sup> dopant through the implanted silicon dioxide to form wells, as recited in claims 9 and 13. Furthermore, there is no teaching or suggest within the prior art of record to modify Houlihan in accordance with the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
